#### Academic Senate Governing Council for the 2014 – 2015 academic year:

President: Doug Hirzel; Vice President: Anne Nicholls; Secretary: David Meckler; Treasurer: Alicia Aguirre; Curriculum Committee: Katie Schertle; Professional Development: Denise Erickson; Humanities and Social Sciences Division: Katie Schertle; Science and Technology Division: Michael Hoffman; Business, Design & Workforce Division: Hyla Lacefield; Athletics, Library and Learning Center: Ana Miladinova & Diana Tedone; Student Services: Sandra Mendez

#### Professional Development Brainstorming by ASGC - Sept. 25, 2014

- Affective Domain training
- What if we had *ongoing* training?
- Departmental mentorship/collaboration
- What if Faculty had time? / Reduce faculty load. Schedules are difficult -> More fixed times where everyone comes to do PD, Faculty Dev. Hour
- Faculty working off-campus
- Dist. Ed Professional Development
- Course planning and assessment built into the work of the classroom
- FIN's haven't taken off: Why not? Time?
- Link achievement of PD with earning a "degree"/ Faculty educational advancement
- Create a system where faculty can work towards earning release time, bank time to be used for PD
- Redesign Trustees Fund for Program Improvement to give faculty the choice of money or release time
- Department-based focus groups
- How to motivate students
- How to promote energy in the classroom
- Cross-pollination with professional groups
- How to create student-centered lectures
- Training in speaking/teaching techniques from professions other than education
- Opportunity to take each others' classes and/or classes outside of discipline and district
- How to help triage service (counseling and student services)
- How to work better as a college using our resources effectively?
- substitutes for classes missed due to PD
- outside observers to observe our teaching and offer advice.
- technology individual tech aid/trainer to flip classroom for initial semester, then faculty member can do it on their own
- TED talk level editing services edit recorded lectures by professors
- recording students so they can see themselves; learn how to use this tool in the best way.
- tech skills improvement workshops too small not critical mass. with a bigger cohort, professors could support each other more; some faculty fall behind in technology--can we keep everybody on board?
  - o also the reverse of that: individual handholding; work on real classes
- creation of visual aids that combine outside expert content and tech, with input from professors as to what is needed in the classroom and for our students
- learning about our students and where they come from -- tours of East Palo Alto, Half Moon Bay, Police Activities League.
- 5/4 teaching load (annual release time) Establish Spring/Fall cohorts that train and work together.
- return to Flex days that are PD oriented, rather than SLO admn type stuff
