	HL: Elsa Torres fall 2016 class size changed from 30 to 40; totally inappropriate (safety, pedagogical reasons). AA: go to union if dean does not resolve. DB: these numbers are stored in Banner, not CurricUNET. DH: this is the very reason we created the Class Max Taskforce and yet faculty showed very little interest/concern

7.1	 Prioritization of new faculty position proposals: Biology, English, Library, Men's Basketball Medical Assisting withdrew its proposal for a fulltime hire. They are deferring until fall 2016. Planning Councils provided feedback on the proposals Mar. 2 and 8. These are found on the PBC website. President Hughes is here today to listen to our rationale for prioritization. Can ranking preferences be tabulated for a non-present member (since it is not a vote)? Consensus seems to be no. Pres Hughes: exact number of hires uncertain due to wide range of non-faculty salaries. 	All	30	Action
	DT spoke about the library position. Technology is			

			1	
	specialized. HL particularly useful, too.			
	DCM: Basketball FT students do better, and you have to be			
	FT to play varsity sports, so teams improve success rate for			
	some students. AA: such young energy from current faculty;			
	physical ed such an important component of education.			
	DH: could the college hire a coach w/ min quals in a different			
	discipline than Kinesiology (we used to have a FT math-			
	tennis coach)? DT: suggests a basketball coach with librarian			
	min quals!			
	Several ASGC members expressed the feeling that they were			
1	finding it difficult to prioritize the proposals.			
	Coaching and librarian positions are quite different in nature			
	from the other proposals.			
	The English and Biology departments have a number of			
	existing full-timers to carry the program forward whereas, in			
	contrast, the librarian and athletics programs have fewer			
	full-timers to fall back on.			
	Results of ranking are appended to these minutes. AA			
	motion to accept prioritization and forward to President;			
	motion passes unanimously			
7.2	Information about proposed Instructional Technologist and Accessibility Specialist positions	Harmon	10	Discussion
	Both positions are Classified so we aren't prioritizing them;			
	but SH felt that their roles needed to clarified; there was			
	much confusion at the Position Presentation.			
	They are staff positions so that we have coverage during the			
	summer and intersession when faculty are working on their			
	courses but are not on contract.			
	Instructional Technologist: will handle all tech questions			
	and queries with respect to Moodle/WebAccess, Canvas,			
	SPOL, CurricUNET, and TracDat. (This will free up the			
	Instructional Designer to do more planning, training of			

	faculty on pedagogy, and other work with respect to the			
	migration to Canvas.) Will work behind the scenes during the			
	transition to Canvas and work with ITS and Instructure. Will			
	keep abreast of all updates, and work with the Instructional			
	Designer to train faculty and staff.			
	Accessibility Specialist: position shared among the 3			
	campuses equally, both in time and pay. Will help faculty			
	and staff prepare their materials to comply with all Section			
	504 and 508 requirements. Will work with the Instructional			
	Designer and the Director of Professional Development and			
	Innovation to guide training workshops.			
	HL: really need to hire only people that really know the			
	technology; specialized, knowledgeable people must be on			
	the screening committee.
