## Spotlight on Access Science

Doing a biology paper and not sure where to start? Need help with anatomy? Want a (relatively) easy but still scientific explanation of black holes? The library database [Access Science](#) is a great resource for your science questions! With over 8,500 articles written by scientists and medical professionals for a lay audience [Access Science](#) is an excellent place to start your research.

## Need citation or research help?

Who put the peers in peer-reviewed articles? Aren't sure how to cite a YouTube video in MLA? What the heck is a hanging indent and why does your professor want one? Find the answers to all your research questions by [making an appointment](#) to meet with a librarian!

## Campus Map 1968

Plenty has changed since Cañada College opened in 1968, but this campus map from the Library's archives probably looks familiar. The round circle in the middle, where the quad currently is located, represents an outdoor amphitheater. The dotted rectangular outlines show plans for a second academic building and an automotive technology center that were still in the planning stages on opening day, September 7, 1968.
