## Kanopy Recommendations from Library Staff

### The Love Witch

"A stylish tribute to 1960s technicolor horror, THE LOVE WITCH utilizes camp and pastiche to depict a feminist revision of the classics of a bygone era"

Like a combination of the original Wicker Man and Hitchcock, but with a female point of view. Lush visuals and a deeper movie than it seems.

-Diana Tedone-Goldstone (Librarian)

### Modern Times

"Charlie Chaplin's last outing as the Little Tramp puts the iconic character to work as a giddily inept factory employee who becomes smitten with a gorgeous gamine (Paulette Goddard)."

My favorite Charlie Chaplin movie, full of humor, action, and romance. The story is deeply aware of class struggles; the factory and prison scenes still hold up, while the difficulties of finding a good job are as relevant today as they were in 1936.

Paulette Goddard turns in an incredible performance, easily holding her own alongside Charlie. -Chris Burns (Librarian)

A UK advertising campaign for Guinness beer made famous the slogan, "Good things come to those who wait." Scientific studies have since confirmed it to be true! **This 1977 article from Cañada's Weathervane** also reports on a study - this one for a campus swimming pool - predicting construction could begin soon! In fact, beginning in 2021, our new Kinesiology and Wellness Building really *will* sport a state-of-the-art swimming pool. Is 44 years so long to wait? -Jessica Silver-Sharp

## Trustees ok study for pool

by Shirley Ward

The San Mateo Board of Trustees approved the "feasibility study" for construction of two 50-meter swimming pools, one at Canada and one at Skyline, costing the district \$11,630 at their meeting Jan. 5.

The two pool study is to be conducted as a joint venture of the Community College District and the County of San Mateo.

In a parallel action the San Mateo Board of Supervisors approved its portion of the funding at its meeting of Tuesday, December 28, 1976.

The proposal has been in the discussion stages for several years. The availability of County Public Works funds, part of the Carter administration \$4 billion Emergency Public Employment Bill, has made the study particularly appropriate at this time.

To be eligible for consideration projects must be completed through the preliminary planning stages and ready for construction within 90 days of approval by the

federal government.

The county has designated the project their number one priority for Public Works funds.

Public education and public recreation would be the two main purposes for which aquatic facilities are proposed.

If the project is approved for Public Works Funds and the feasibility study is positive, construction of the pools could begin this summer.

## Cañada student for Trustee post

Nashelle Scofield, math major and head of Canada's Women's Coalition, recently announced her candidacy for one of the vacant posts on the Board of Trustees. The election will be held March 8.

Ms. Scofield, 27, lists the re-evaluation of child care and getting more student input on curriculum decisions as significant aspects of her platform.
